A Better Sense of Security

ELECTRAVISION is the complete specialist in the design and installation of Closed Circuit Television, Access Control and Integrated Security Systems. Our policy is to provide our customers with a 5-star service, ranging from technical sales and system design through to installation, training and maintenance from our in-house team.

Since our formation in 2001, Electravision UK Ltd has adhered to a simple philosophy: the belief in the need to offer excellence in customer service. This will always be an integral part of our company policy.

From day one, we have taken great pride in being at the forefront of the latest in digital security systems whilst maintaining competitive prices.

Electravision’s security systems are designed and developed to meet the individuality of every client’s needs. High in quality but competitive in price, we strive to ensure that each system we install is tailored to maximise your safety and the protection of your property.

We are suppliers and installers of CCTV, Access Control Systems and Intruder Alarms. All security systems are designed to be operator friendly with the end-user in mind. An important factor in the effectiveness of any security system is operator training. Electravision provides all manuals and training after every installation to ensure a successful security solution.
Professional CCTV Installations

CCTV surveillance systems are now widely used. Our customers are using closed circuit systems with advanced technology, such as remote viewing, to deter crimes such as burglary break-ins and vandalism of residential and commercial property. CCTV can also be used to monitor employees and increase productivity.

Electravision UK Ltd provides customers with industry-leading, end-to-end video solutions and components, including cameras, lenses, domes, keyboards, DVRs, VCRs, quads, multiplexers and more.

We offer complete systems that fit every budget for virtually any installation, including homeland security, corrections, retail, gaming, mobile, financial and education applications. We know that a trustworthy partnership is a prerequisite to a mutually profitable business relationship.

We can help design CCTV systems for both residential and commercial installations including retail stores, commercial buildings, manufacturing plants and more using the latest Digital and IP solutions.

We can help you by installing a system that will enable you to monitor your business remotely using your existing broadband connection. No matter whether you are in the head office, at home or even travelling abroad, cameras can be directly plugged into a digital video transmission unit that can be securely viewed by you on your remote device of choice.
Intruder Alarms

We can offer an extensive range of intruder detection and intrusion prevention products. These systems include:

• Hardwired Intruder Alarm Systems
• Wireless Intruder Alarm Systems
• Perimeter Detection Systems

Personalised items tailored to suit your company identity, such as screen-printed bell boxes and keypads, are also available.

Access Control Systems

Electravision specialise in the installation of Access Control & Intercom Systems. These systems provide security to your premises by giving flexible control over who is allowed to enter a building and when. The systems we install will keep your buildings, staff and assets secure. From one door up to hundreds of doors across multiple sites, we have a solution to suit your needs.

We provide Gate Automation using products from the leading manufacturers including BPT, FAAC, and CAME.
About Us

Electravision is first and foremost a supply and installation company of CCTV, Access Control Systems and Intruder Alarms.

All our staff have been screened and CRB checked to give you peace of mind whilst we are on-site carrying out your installation. This is particularly important when working in sensitive environments. Our engineers have certified training as well as the companies SSAIB certification.

Electravision has been running since 2001, we have a reliable team of skilled engineers who carry out installations and maintain our systems. We pride ourselves in carrying out all works professionally and to an extremely high standard & should the need arise we have a dedicated team of approved subcontractors at our disposal.

All of our engineers are fully security screened & trustworthy. Our staff are kept up-to-date with annual training courses to refresh their skills and knowledge to cover up-to-date technology in security systems to ensure an excellent level of service.
