Audio Spycam

Color Video Camera

Miniature Video Camera

Let SpyCam be your eyes & ears...

Side by side, the Swann Audio SpyCam is not much bigger than your thumb, making it ideal for undercover assignments and undetected surveillance. Connect the camera to a TV, VCR, or LCD screen with an AV input, hide the camera in a discreet position (i.e in a plant, behind a picture frame or in-between a few books) and receive quality color images and sound. Now you can investigate your suspicions with ease!

Change viewing angles - with Swann Fisheye, Swann Telephoto and Swann Wide Angle Lenses also available!
